Career Highlights My first year in Novice Ski, I took 15th in APBA Nationals. I made it to the main event! yeah!
Regional Accomplishments First place season overall, region 9, Novice Ski Stock. Best slalom was 24.6.
National Accomplishments 15th in 2005 National Championship, Novice Ski Stock my first year in the sport.
World Finals Accomplishments Never been. Maybe this year.
Biggest Thrill in Racing Besides running side by side with twenty other guys drag racing for the same two buoys?.I would say taking second place in the four lap LCQ at Nationals 2005 against nine other guys. WOW what a great feeling! I could care less if I even made the main if I could relive that moment again.
Biggest Disappointment Everytime I have a yard sale, which was VERY frequent during my first half of the season. :)
Training THANKS Jeff Wright. He`s definitely someone to lookup to when getting into racing. Lucky for me we grew up in the same hometown and live in the same metro area.
