Biggest Thrill in Racing	The confidence that the sport brings, I have always enjoyed the need for speed, and just holding on. But, most of all I'm doing it. Something I would have never dreamed of.
Biggest Disappointment	The race in Tampa,2005 when I completely forgot, how the race course went. Also, the times my body has felt the impact of the water. (Gee that hurt and where did it go)
Training	There is always room for improvement. Mind over matter. My mind always tells me it matters to train as often as possible.
