Biggest Thrill in Racing I would have to say the World Finals, your racing against people from different country and being able to make it to the next heat or motto is a thrill all of its own.

Biggest Disappointment It wasn't a disappointment of myself it was a disappointment for Region 6 when both of the best promoters in the Industry split and we had to chose what races to do over the course of the year.

Training I train on an area lake with a good friend of mine we work hard together to make each other better turning the racing season...
